

Welcome to the PIA for FY 2011!

Congress passed the E-Government Act of 2002 to encourage the use of Web-based Internet applications or other information technology by Government agencies, with the intention of enhancing access to government information and services and increasing the effectiveness, efficiency, and quality of government operations.

To combat public concerns regarding the disclosure of private information, the E-Government Act mandated various measures, including the requirement that Federal agencies conduct a Privacy Impact Assessment (PIA) for projects with information technology systems that collect, maintain, and/or disseminate "personally identifiable information" of the public. Personally identifiable information, or "personal information," is information that may be used to identify a specific person.

The Privacy Act and VA policy require that personally identifiable information only be used for the purpose(s) for which it was collected, unless consent (opt-in) is granted. Individuals must be provided an opportunity to provide consent for any secondary use of information, such as use of collected information for marketing.

Directions:

VA 6508 is the directive which outlines the PIA requirement for every System/Application/Program.

If you find that you can't click on checkboxes, make sure that you are: 1) Not in "design mode" and 2) you have enabled macros.

PIA Website: http://vawww.privacy.va.gov/Privacy_Impact_Assessments.asp

Roles and Responsibilities:

Roles and responsibilities for the specific process are clearly defined for all levels of staff in the VA Directive 6508 referenced in the procedure section of this document.

- a. The Privacy Officer is responsible for the overall coordination and review of the PIA to ensure compliance with VA Directive 6508.
- b. Records Officer is responsible for supplying records retention and deletion schedules.
- c. Information Technology (IT) staff responsible for the privacy of the system data will perform a PIA in accordance with VA Directive 6508 and to immediately report all anomalies to the Privacy Service and appropriate management chain.
- d. Information Security Officer (ISO) is responsible for assisting the Privacy Officer and providing information regarding security controls.
- e. The CIO is responsible for ensuring that the systems under his or her jurisdiction undergo a PIA. This responsibility includes identifying the IT systems; coordinating with the Privacy Officer, Information Security Officer, and others who have concerns about privacy and security issues; and reviewing and approving the PIA before submission to the Privacy Service.

Definition of PII (Personally Identifiable Information)

Information in identifiable form that is collected and stored in the system that either directly identifies an individual by name, address, social security number, telephone number, e-mail address, biometric identifiers, photograph, or other unique numbers, codes or characteristics or combined, indirect identify an individual such as a combination of gender, race, birth date, geographical indicators, license number is also considered PII.

Macros Must Be Enabled on This Form

Microsoft Office 2003: To enable macros, go to: 1) Tools > Macros > Security - Set to Medium; 2) Click OK; 3) Close the file and when reopening click on Enable Macros at the prompt.

Microsoft Office 2007: To enable macros, go to: 1) Office Button > Prepare > Excel Options > Trust Center > Trust Center Settings > Macro Settings > Enable

All Macros; 2) Click OK

Final Signatures

Final Signatures are digitally signed or wet signatures on a case by case basis. All signatures should be done when all modifications have been approved by the VA Privacy Service and the reviewer has indicated that the signature is all that is necessary to obtain approval.

Privacy Impact Assessment Uploaded into SMART

Privacy Impact Assessments should be uploaded into C&A section of SMART.

All PIA Validation Letters should be emailed to christina.pettit@va.gov to received full credit for submission.

(FY 2011) PIA: System Identification

Program or System Name: Region 2>VHA>VISN 23>CENTRAL IOWA HCS>PBX

OMB Unique System / Application / Program Identifier

029-00-02-00-01-1120-00

Description of System/ Application/ Program: VA Central Iowa HCS uses the PBX as a General Support System, supporting mission-critical and other systems necessary to conduct day-to-day operations within the Department of Veterans Affairs and associated Outpatient Clinics at Knoxville, Marshalltown, Fort Dodge and Mason City, Iowa. The Public Branch Exchange (PBX) is a system that allows telephone calls to be made within the facility, facility to facility using FTS or on-net, local and long distance calls as well as VoIP. There are several servers that are networked with the PBX to allow a greater system support for our customers. Optivity Telephony Manager (OTM) is a server that uses a GUI interface to the PBX that allows call traffic reports to be collected and displayed. Call Pilot is a system that is used to store and retrieve voicemail via the phone, over the web or desktop client. Symposium is a system that allows Automatic Call Distribution (ACD) for our call centers within each facility and the VISN. This system allows reports to be collected and displayed.

What specific legal authorities authorize this program or system:

Title 5 USC

What is the expected number of individuals that will have their PII stored in this system:

0

Identify what stage the System / Application / Program is at:

Operations/Maintenance

The approximate date (MM/YYYY) the system will be operational (if in the Design or Development stage), or the approximate number of years the system/application/program has been in operation.

12 years

Is there an authorized change control process which documents any changes to existing applications or systems?

Yes

If No, please explain:

Has a PIA been completed within the last three years?

Yes

Date of Report (MM/YYYY):

02/2011

Please check the appropriate boxes and continue to the next TAB and complete the remaining questions on this form.

2. System Identification

- ☐ Have any changes been made to the system since the last PIA?
- ☐ Is this a PIV system/application/program collecting PII data from Federal employees, contractors, or others performing work for t
- ☐ Will this system/application/program retrieve information on the basis of name, unique identifier, symbol, or other PII data?
- ☐ Does this system/application/program collect, store or disseminate PII/PHI data?
- ☐ Does this system/application/program collect, store or disseminate the SSN?

If there is no Personally Identifiable Information on your system , please complete TAB 2 & TAB 12. (See Comment for Definition of PII)

(FY 2011) PIA: System of Records

Is the data maintained under one or more approved System(s) of Records? If the answer above no, please skip to row 15.

No

For each applicable System(s) of Records, list:

1. All System of Record Identifier(s) (number):
2. Name of the System of Records:
3. Location where the specific applicable System of Records Notice may be accessed (include the URL):

Have you read, and will the application, system, or program comply with, all data management practices in the System of Records Notice(s)?

Does the System of Records Notice require modification or updating?

(Please Select Yes/No)

Is PII collected by paper methods?

No

Is PII collected by verbal methods?

No

Is PII collected by automated methods?

No

Is a Privacy notice provided?

No

Proximity and Timing: Is the privacy notice provided at the time of data collection?

No

Purpose: Does the privacy notice describe the principal purpose(s) for which the information will be used?

No

Authority: Does the privacy notice specify the effects of providing information on a voluntary basis?

No

Disclosures: Does the privacy notice specify routine use(s) that may be made of the information?

No

If Yes, How will parental or guardian approval be obtained?

Answer:

(FY 2011) PIA: Security

Is the system/application/program following IT security Requirements and procedures required by federal law and policy to ensure that information is appropriately secured.

Yes

Has the system/application/program conducted a risk assessment, identified appropriate security controls to protect against that risk, and implemented those controls..

Yes

Is security monitoring conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information?

Yes

Is security testing conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information?

Yes

Are performance evaluations conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information?

Yes

If 'No' to any of the 3 questions above, please describe why:

Answer:

Is adequate physical security in place to protect against unauthorized access?

Yes

If 'No' please describe why:

Answer:

Explain how the project meets IT security requirements and procedures required by federal law.

Answer:

Explain what security risks were identified in the security assessment? *(Check all that apply)*

PIA: PIA Assessment

Identify what choices were made regarding the project/system or collection of information as a result of performing the PIA.

Answer:

<p><u>Availability Assessment:</u> If the data being collected is not available to process for any reason what will the potential impact be upon the system or organization? (Choose One)</p>	<p><input type="checkbox"/> The potential impact is high if the loss of availability could be expected to have a severe or catastrophic adverse effect on operations, assets or individuals.</p> <p><input type="checkbox"/> The potential impact is moderate if the loss of availability could be expected to have a serious adverse effect on operations, assets or individuals.</p> <p><input checked="" type="checkbox"/> The potential impact is low if the loss of availability could be expected to have a limited adverse effect on operations, assets or individuals.</p>

The controls are being considered for the project based on the selections from the previous assessments?

The ultimate objective is to conduct the day-to-day operations of the VA and to accomplish our stated mission with what the Office of Management and Budget (OMB) Circular A-130 defines as adequate security including the magnitude of harm to individuals, the VA, or its assets resulting from the unauthorized access, use, disclosure, disruption, modification, or destruction of information. Many of the security controls such as contingency planning controls, incident response controls, security training and awareness controls, personnel security controls, physical and environmental protection controls, and intrusion detection controls are common security controls used throughout the VA. Our overall security controls follow NIST SP800-53 low impact defined set of controls.

Please add additional controls:
